**Presence of Various Substances**

**Fire Fighting Media and Instructions** CO<sub>2</sub>, foam, water. Wear self-contained breathing apparatus and protective clothing.

**Protective Clothing (Fire)****Special Remarks on Fire Hazards****Special Remarks on Explosion Hazards****Section 6. Accidental Release Measures**

**Small Spill and Leak** Evacuate the area of all unnecessary personnel. Wear suitable protective equipment listed under section VIII. Eliminate any ignition sources until the area is determined to be free from explosion or fire hazards. Contain the release and eliminate its source, if this can be done without risk. Take up and containerize for proper disposal as described under Waste Disposal Method. Comply with Federal, State and local regulations on reporting releases. Always contact a permitted waste disposer (TSD) to assure compliance with all current local, state and federal regulations.

**Large Spill and Leak** Same as above.

**Section 7, Handling and Storage**

**Handling** Do not breathe vapor or mist. Do not get in eyes, on skin, or on clothing.

**Storage** Keep container tightly closed. Store away from heat, sparks, open flame.

**Section 8. Exposure Controls / Personal Protection****Engineering Controls****Personal Protection**

**Eyes** Safety glasses with side shields must be worn at all times.

**Body** Impervious protective clothing must be worn to prevent skin contact.

**Respiratory** If workplace exposure limit(s) of product or any component is exceeded (see TLV/PEL), a NIOSH/MSHA approved air supplied respirator is advised in absence of proper environmental control. OSHA regulations also permit other NIOSH/MSHA respirators (negative pressure type) under specified conditions (see your safety supplier). Engineering and/or administrative controls should be implemented to reduce exposure. Material must be handled or transferred in an approved fume hood or with adequate ventilation.

**Hands** Neoprene, nitrile or equivalent gloves.

**Feet** Not available.

**Personal Protection in Case of a Large Spill** Safety glasses with side shields, impervious protective clothing, respirator if necessary and neoprene, nitrile or equivalent gloves.
