

The Center for Oral Pathology at StrataDx was established in 2010.

Our staff of five board-certified oral pathologists regularly participates in academic and research activities and keeps current with the latest trends in both histopathologic interpretation and treatment.

StrataDx
One Cranberry Hill, Auditorium, 1st Floor
Lexington, MA 02421
P: 800-325-7284 F: 617-252-6563

Upon completion of this course, attendees should be familiar with:

- Common and sporadically encountered pathologic lesions exhibiting oral pigmentation
- Radiographic imaging techniques & interpretation
- A variety of nodular lesions presenting in the oral cavity and their diagnosis and management
- Leukoplakia as a clinico-pathologic entity and the rationale of treatment vs. watch-and-see for leukoplakias without dysplasia
- Understanding radiopaque jaw lesions and the rationale for when to biopsy such lesions

DENTSPLY is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

DENTSPLY designates this activity for **6 continuing education credits**.

Disclaimer: DENTSPLY Implants is committed to new and innovative knowledge, however sponsorship by DENTSPLY Implants does not necessarily imply endorsement of a particular philosophy, procedure, or product.

Dentsply Implants and The Center for Oral Pathology at StrataDx presents the
3rd Annual Continuing Education Symposium

Diagnosis & Treatment of Oral Lesions:
Practical Aspects

Saturday, Sept. 21, 2013
8:30 a.m. – 5:00 p.m.

One Cranberry Hill, Auditorium
Lexington, MA 02421

3rd Annual Symposium

Diagnosis & Treatment of Oral Lesions: Practical Aspects

Target audience:

This course is intended for dentists, oral surgeons, periodontists, endodontists, and other specialists who wish to improve their interpretation and utilization of clinical and radiographic information to make appropriate diagnoses and treatment decisions. Residents working towards board certification in their specialties will also find the course content educational.

Faculty:

Sadru Kabani, DMD, MS

Co-Director of the Center for Oral Pathology

Sook-Bin Woo, DMD, MMSc

Co-Director of the Center for Oral Pathology
Associate Professor, Harvard School of Dental Medicine

Vikki Noonan, DMD, DMSc

Associate Pathologist
Associate Professor, Boston University School of Dental Medicine

Mark Lerman, DMD

Associate Pathologist
Assistant Clinical Professor, Harvard School of Dental Medicine

Louis M. Abbey, DMD, MS

Associate Pathologist
Clinical Instructor, Harvard School of Dental Medicine

Bernard Friedland, BCh, MSc, JD

Oral and Maxillofacial Radiologist
Assistant Professor, Harvard School of Dental Medicine

Features of the course include:

- Panel of board-certified oral pathologists and radiologists
- Detailed overview of common and sporadically encountered nodular lesions of the oral cavity, some of which have a proclivity for occurring in specific age groups
- Review of selected rare oral malignancies and their more common benign mimics
- Parameters for assessment of radiopacities and features that warrant biopsies
- Interpretation of panoramic radiographic findings
- Informal Q & A session at the conclusion of the symposium
